NEUROCARE™

CANINE FORMULA

The Power to Nutritionally Manage Dogs with

# Cognitive Dysfunction Syndrome

Cognitive Dysfunction Syndrome (CDS) is an age-related disorder characterized by gradual cognitive decline. Clinical signs include disorientation, house soiling, anxiety, and changes in sleep cycles, activity or interactions with others.

**Purina® Pro Plan Veterinary Diets® NC NeuroCare™** is enhanced with a unique blend of nutrients (arginine, EPA + DHA, antioxidants and B vitamins) and medium chain triglyceride oil to help nutritionally manage dogs with CDS.

# Advanced Nutrition

Enhanced with a unique blend of nutrients and medium chain triglyceride oil to help nutritionally manage dogs with Cognitive Dysfunction Syndrome

Patent pending

# General Health

- Antioxidant-rich nutrition supports the immune system, including a high level of Vitamin E
- EPA + DHA, omega-3 fatty acids, to help support brain health
- High in protein to help maintain lean muscle mass
- Great taste

## **NC NEUROCARE™ CAN BE USED TO HELP IN THE NUTRITIONAL MANAGEMENT OF DOGS WITH THE FOLLOWING:**

- Cognitive Dysfunction Syndrome
- Epilepsy as an adjunct to veterinary therapy

Refer to the backside of your product package for feeding instructions.

Purina® Pro Plan Veterinary Diets® are to be used under the direction of a veterinarian.
